A monthly supplement on Modernising Medical Careers covers the full breadth of the new curriculum, providing all the information the doctor in training needs to complete the Foundation Programme successfully.

British Journal of Hospital Medicine, the leading multi-specialty review journal, has been educating hospital doctors for over 40 years

The journal publishes authoritative, topical and in-depth clinical reviews that are written by experts and peer-reviewed by some of the world's most renowned medical authorities and specialists.

BJHM covers all specialties in hospital medicine, making it a must-read publication for all doctors who want to ensure that their practice is evidence-based and up-to-date with all the latest clinical developments.

Regular features in the journal include:

- **Editorials**
- **Clinical Reviews**
- **Symposia**
- **Education and Training Update**
- **Case Reports**

In addition, each issue of BJHM contains a pull-out supplement on the foundation programme, providing all the information foundation programme doctors need to successfully complete this stage of their training. This is also a great resource for those who are teaching foundation doctors.
